Many instructors will create a Module Page called Homepage that contains the modules that you and your students find most useful. Module Pages contain Course Modules that you select from a list. A Course Module can be a tool, such as a calculator, or it can display dynamic information such as grades, alerts, and announcements. Course Modules can be added to Module Pages only. Managing Modules
Customize Module Page Banner

You edit a Module Page’s settings and title just as you would any other content item. Click its Action Link (✓) to access the contextual menu and select Edit. However, changing a Module Page’s banner is done in a different way.

1. Change Edit Mode to ON.

2. Access the Content Area, Learning Module, Lesson Plan, or folder where the Module Page is located.

3. Click the link to the Module Page.

4. On the Module Page, click the title’s Action Link to access the contextual menu.
5. Select Page Banner.

6. Type the Page Banner Content in the Text Box. You can use the Text Editor functions to format the text and include files, images, web links, multimedia, and Mashups. Any files uploaded from your computer are saved in Course Files or the Content Collection in the top level folder. Attachments uploaded using the Text Editor can be launched in a new window and can include alternate text to describe the attachment.

7. Click Use Custom Page Banner display your banner to users. When Edit Mode is ON, the custom page banner will appear above the default banner. Users see only the custom page banner.

8. Click Submit.

Note: A recommended size for banners is approximately 480 by 80 pixels. Keep in mind that users can resize their browser windows, expand and collapse the Course Menu, and use monitors of varying sizes and screen resolutions. After uploading a banner, view it under those varying conditions to ensure that it looks as you intended.
